

## CRITERIA-II

### 2.2.1 The institution assesses the learning levels of the students, after admission and organises special programs for advanced learners and slow learners

Most of the students admitted to our College come from rural areas and also from varied academic, cultural, economic and social background and they are mostly from vernacular medium. The students are identified as advanced learners and slow learners at the first stage, on the basis of their previous performance. The college identifies the slow and advance learners initially by analysis of entry level merit and later by conducting IQ Tests, continued internal performance assessment, mentoring, tutorials and tests. The key issues such as knowledge, planning abilities, problem analysis and communication are initially identified based on entry level performance and continued performance assessment is done through outcomes of students interactions with the class teachers and mentors allotted. After identification of students as slow learners and advanced learners the following steps are taken to improve their performance.

**The faculty takes necessary initiatives to improve the performance of students. They are as follows:-**

1. A series of remedial classes are arranged for the slow learners to clear their concepts and improve their performance. After the remedial lecture, subject teacher caters to their requirements by providing personal explanation and discussion with students.
2. Special attention to the students in the tutorial / practical classes.
3. Counselling of students and providing solutions for his problems during mentoring sessions and day to day evaluation.
4. Skill Enhancement courses are offered free of cost. Extra Coaching is conducted based on results of examination. Study material are provided by the teachers for preparation of examination.
5. These students are specially taken care of by class teacher/Mentor and counsellor.
6. Counsellor provides proper advice and counseling to such students, in general and at individual level.
7. Question banks are provided.
8. Paper solving series are arranged for the students to excel in the respective subjects.

**Advanced Learners: Following measures are adopted for advanced learners:**

1. Motivating students for better performance in competitive exams and for higher studies by mentors during mentoring sessions.
2. Seminar and projects assigned to this students and group leadership membership given to advance learner student.
3. Motivation of these students to participate in College level and intercollegiate level competitions to excel in presentation skills.
4. 4. Advanced learners are encouraged to participate in National and International conferences and seminars like Avishkar Research Competition.
5. N-list library facility and reference books are made available for these students.

## Slow and Advanced Learners

- Name of the professor: Dr. Rameshwar Raosahab Kamse
- Designation: HOD & Assistant Professor
- Name of the Department: Philosophy

### For Slow learner students:

a)	Name of Subject	Logic
b)	Class	TUBA
c)	Topic Name	Propositional Logic
d)	Method	Lecture.
e)	No. of students	03

### For Advanced Learners:

a)	Name of Subject	Philosophy of Bhagavad-Gita
b)	Class	TUBA
c)	Topic Name	Nishkam Karma-Yoga.
d)	Method	Lecture
e)	No. of students	05

# Activities Taken for Advanced learners

## 1. Tutoring to Slow Learners :

## Activities taken for slow learner's

### 1. Learning through Real world Examples :

**Visit to Shivneri Fort (History Department)**

**Visit to Bisleri Industry (BMS & BAF Department)**

## 2. Learning through group discussion :

## 3. Leaning through online on YouTube:

# ***Advanced Learners Participation in Intercollegiate Competition's (From the year 2015-16 to 2019-20)***

The institution encourages students to participate in intercollegiate competitions. Advanced learners participate in these competitions and bring laurels and prizes to the institution. Following is the sum of prize:

<b><i>Sr.No.</i></b>	<b><i>Name of Student</i></b>	<b><i>Competition</i></b>	<b><i>National/ International/ State/Collegiate</i></b>	<b><i>Prize</i></b>
1	Rohan Kurle	Light hokol solo	Jawar college	I
2	Sarika Mhaskar	Mono acting	Jawar college	II
3	Rohan Kurle	Light hokol solo	Khardi college	III
4	Sarika Mhaskar	Mono acting	Khardi college	III
5	Harshada Ingle	Skit	Shivle college	consolidated
6	Rohan Kurle	Naya geet	Shivle college	III
7	Tushar sirsat	Flock orchestra	National	Gold medal
8	Harsgada Ingale	Street Play	Udaan festival	I

Skit I Rank University level

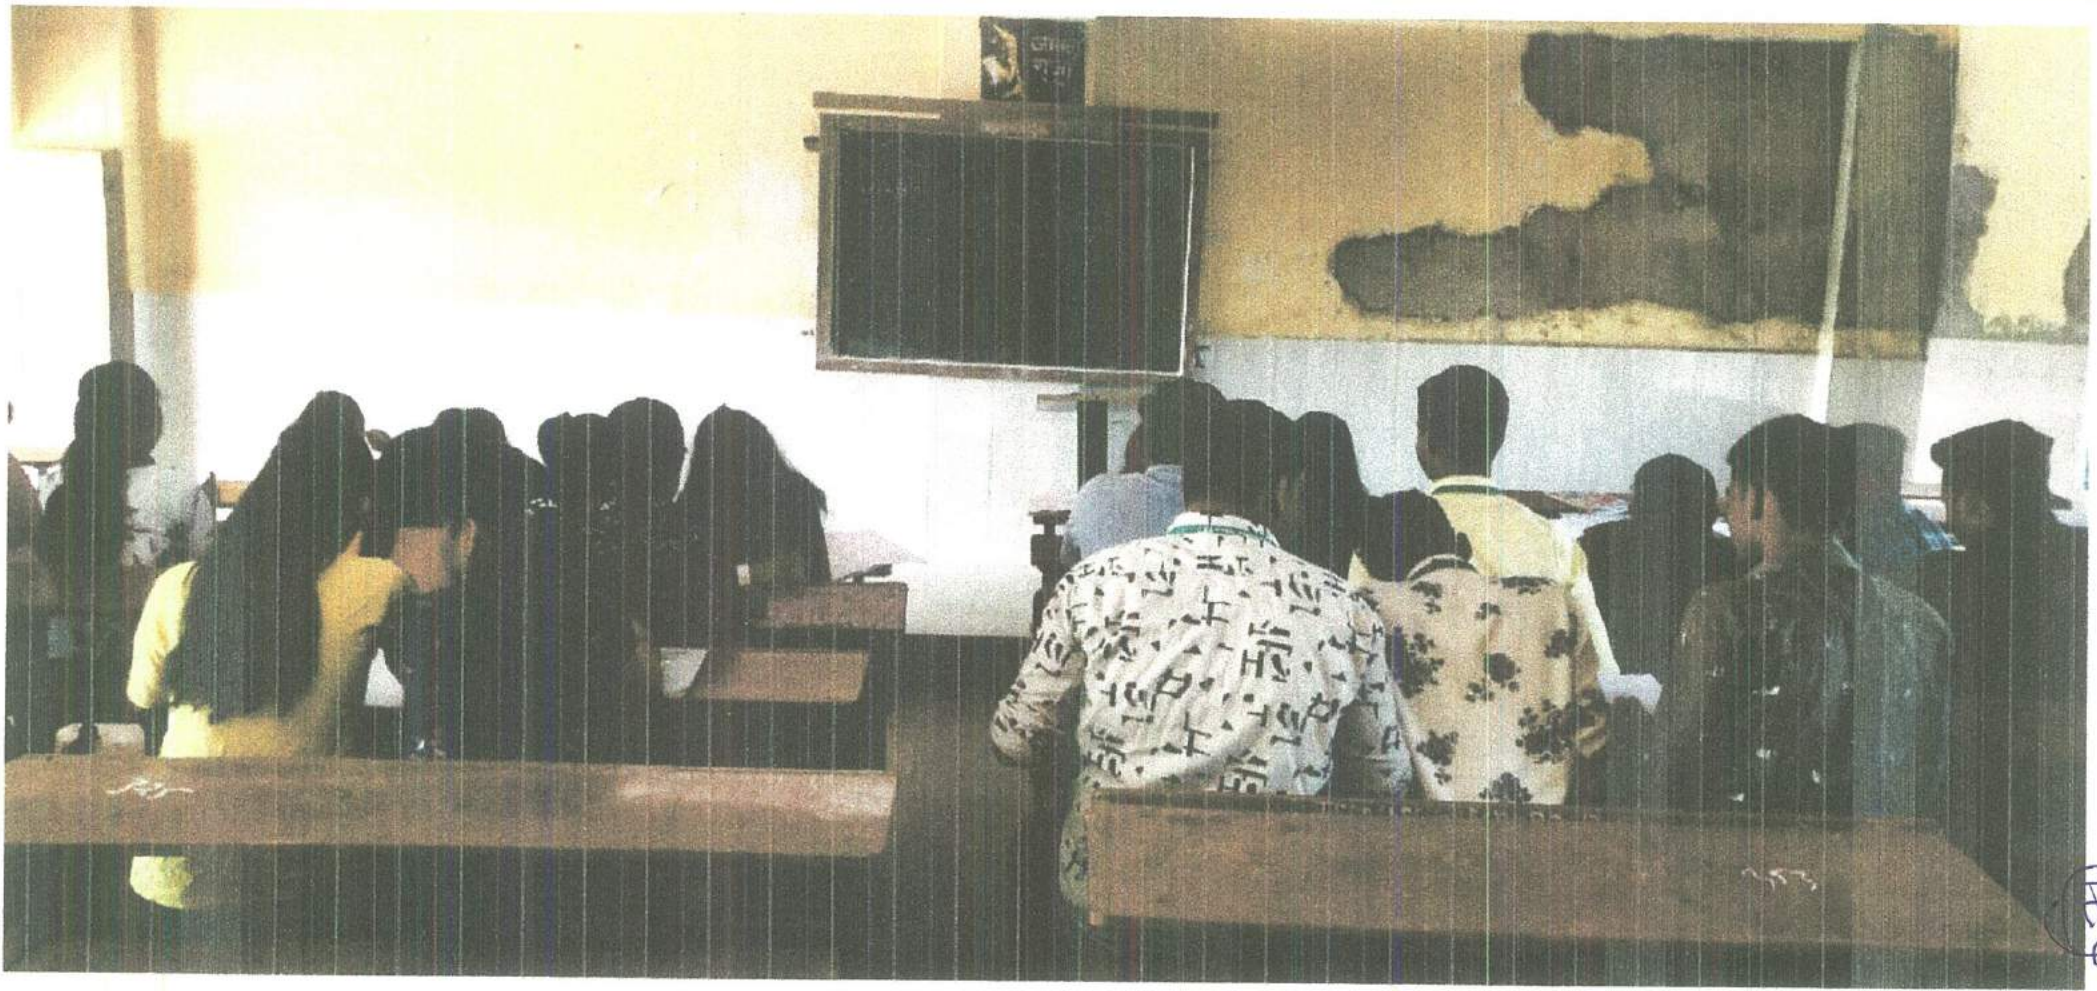

Mono Acting

Slow Learners.

P.Y.B.A.

Date 17/3/2020

Topic name

वेळ - 2 तास

(Globalisation and Indian Society)

Test.

- Q1) शेतकऱ्यांच्या आत्महत्या का होतात त्याची कारणे सांगून आणि त्यावर उपाय सुचवा
- Q2) माहिती तंत्रज्ञानाचा आपल्या दैनंदिन जीवनावर काय परिणाम होतो. ते थोडक्यात विशद करा ?
- Q3) उद्योगांवर आरतात जागतिकीकरणाचा काय परिणाम झाला आहे ?
- Q4) जागतिकीकरण, आणि, जागतिकीकरण संकल्पना स्पष्ट करा ?

Name :- Shraddha R. Sonur  
Class :- SYIT  
Roll No :- 6303

- Q.1 explain 2D transformation with e.g  
Q.2 explain 3D Projection

Q.1

1) Process of changing of size, orientation or position of object by a mathematical operation is called as transformation there are two types/method

- 1) Geometric transformation
- 2) Coordinate transformation

Co-ordinate transformation  
it is type of transformation in which Co-ordinate system is used

Matrix :

matrix is computer graphic is very important it provide solid general tool for represent transformation the matrix which perform all type of transformation is known as transformation matrix it is denoted by T

Let consider original matrix P and transformed matrix Q which is written as

$$[Q] = [P] [T]$$

So matrix transformation is written as  $[T] = P^{-1} Q$

354

2 D transformation :-

transformation which applied on 2D plane is called as 2D transformation

In 2D transformation matrix contain only 2 (co-ordinates)  $(x, y)$  as elements  
eg like  $1 \times 2$

$$\begin{bmatrix} x & y \end{bmatrix}_{1 \times 2} \text{ or } \begin{bmatrix} x \\ y \end{bmatrix}_{2 \times 1}$$

3 D transformation  
transformation which applied on 3D plane is called as 3D transformation

It use three direction (of co-ordinates) operation Perform on 2D and 3D transformation

- 1) rotation
- 2) Scaling

1) rotation :-

it rotate by angle on 2D plane or 3D plane object.

2) Scaling :- it is process of Scaling of object in xy plane
