	Academic feedback	60-67

6.5.2 The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities (For first cycle - Incremental improvements made for the preceding five years with regard to quality For second and subsequent cycles - Incremental improvements made for the preceding five years with regard to quality and post accreditation quality initiatives)

IQAC adopts various strategies of enhancing quality in teaching and learning, as teaching and learning is the core area of the activities of the College. IQAC has been monitoring the quality of teaching learning process and learning outcomes at periodic intervals during its quarterly meetings. Review of teaching learning process is achieved through following methodology:-

1. Academic Calendar is prepared at the beginning of the academic year and the same is uploaded on College Website and displayed on notice boards.
2. Course wise teaching plan is prepared by the teachers and submitted to HODs/Senior most teachers in the Department.
3. Time Table is displayed for the students on different notice boards in College and uploaded on the website.
4. Teachers are provided with College diary to enable them to maintain daily record.
5. Time table is monitored by lecture coordinators and heads of various departments and review is taken in the IQAC meetings. Discussions are held on learning outcome in various programmes and courses.
6. Regular meetings with HODs/Senior most teachers ensure timely conduct of tests, tutorials, assignments, practicals and projects. Organization of co-curricular, extra-curricular and other types of activities for students are reviewed regularly in the meetings of IQAC with conveners of Committees.
7. IQAC encourages teaching and non-teaching staff for participation in Orientation programme / Refresher course / Short-term training courses. IQAC promotes the use of ICT enabled teaching and encourages faculties to adopt it.
8. Regular meetings with HODs of all Departments are conducted and measures for improvement are suggested.
9. Result analysis is discussed in the IQAC meetings and Departments are directed to take corrective measures if and when necessary.

Review and implementation of teaching learning reforms facilitated by IQAC are as follows:-

1. Experiential learning

1. Study tours/ Industrial visits are organized.
2. Guest Lectures are organized where students get opportunity to interact with eminent personalities.
3. Exposure to the latest developments and trends in various fields is offered to the students through knowledge sharing and active participation in seminars, workshops, quiz, projects and conferences.
4. The College has started various skill development courses as a step towards enrichment of students in addition to academics.
5. The Students participate in Science exhibitions at College and Inter collegiate levels.
6. Students are encouraged to use facilities of College research center for their projects.

2. ICT based Teaching Learning Environment

1. Provision for smart Laboratories and ICT enabled class rooms, with Youtube channel.
2. Computers of the latest configuration and necessary software.
3. Most of the Departments have their e-contents/ study materials for concerned courses.
4. N-List software made available to access online Journals and Books to teachers and students.
5. Demonstration work, industrial visit collaboration, brain storming sessions.

Teaching-learning process

Students centric method:-

Learning at the college has always been student-centric. The focus is on knowledge of Transfer and learning through students' active participation and involvement.

The faculty provides a platform for students to explore independently, learn through self-study and from their peers, guide them to develop effective and lifelong skills.

The following latest teaching and learning methodologies are used to motivate students to learn for higher retention of knowledge through better understanding

Regular learning and experimental learning:

The faculty employs theoretical lecture methods, practical class-rooms seminars computer-assisted learning, fieldwork, and other ways whenever and wherever necessary for teaching-learning and evaluation of the students.

Participative or experiential learning:-

Field-based experiential learning like service learning and class-based experiential learning like role play, games, case studies, etc active learning.

The faculty adopts active learning by involving students in the learning process directly through following activities like quizzes, debate, group discussions model making essay elocution, mini-project, etc.

Industrial tours/study tours:-

The management makes the students experience the real world by visiting the industry, study tours, and held work.

Problem-based learning /project-based learning:-

In project/competition participating students are assigned different tasks, assignments, activities in which students engage in complex challenging

problems and collaboratively work toward their solutions by using interdisciplinary knowledge.

The institute also encourages and guides the students to participate in the co-curricular and extra co-curricular activities, and national-level competitions organized by other institutes and universities.
